I suspect that you appreciate that, in my own feeble fashion, I am just as busy as you people are. Most of the activity is, as is yours, the putting out of fires that shouldn't have started in the first place. As a result, no one seems to have time for the "big picture" nor to plan next month's or even next week's activity.

Recently, I decided to force myself to take time out to study the situation with regard to . Frankly, I don't like any part of the story that I have found out so far. Many of the faults are ours. In fact, if you count the fact that we haven't been needling your people for action, than I would change "many" to "most".

25X1

Be that as it may, I would like to review the entire situation as I understand it in the form of a Quarterly Report which is attached herewith.

Please take the time to read it personally, form some opinions with your people; and then let me and/or some of my people come down to answer your questions so we can begin to take some action.

In other words, "LET'S GET THE SHOW ON THE ROAD".
